

Using Google to Upload Video

1st start at www.google.com, click on "video" above the search bar.

Because we are wanting to upload video content do not watch other movies, instead select "Upload your videos."

If you do not have a gmail account I would highly encourage getting one.

Google Video BETA Upload and share your videos

Upload and share your videos

- Uploading a video is completely free
- Only a few minutes to upload, share with friends
- Easily email your video to friends and family
- Post your video to your blog or website
- If you're a video producer with many titles, go [here](#) and we'll contact you about our new video services

Sign in to Google Video with your Google Account

Buttons: Open, Cancel

- Go to where your videos are stored. Mine are automatically placed in the “My Videos” folder in “My Documents.”

Google Video (Beta) - Video Upload Program - Microsoft Internet Explorer

Address: <https://www.google.com/video/Upload/UploadVideo.htm>

Upload Video

There are two ways to upload video to Google:

- Web-Based Uploader**
 - Use for files smaller than 100 MB
 - Upload using a web-based form
 - Instantly view your video online
- Desktop Uploader**
 - Use for files larger than 100 MB
 - Use the Google Video Uploader 1.0.5

Before uploading your video to Google, we prefer that you encode your audio ([Stream.MP3](#)). To ensure your upload is successful, please follow video file size, you'll need to add your video information via your Video Status page.

Install the Google Video Uploader

Install Windows Uploader | Install Mac Uploader

If you get stuck in the process, visit [Upload Video Instructions](#) page.

Upload your video file(s) using the Uploader

A. Click the **Login** button, and enter your account information.
 B. Click the **Add** button to upload one or multiple video files.
 C. Check the box to agree to our [Terms of Service](#).
 D. Click **Upload now** to submit your video(s) to Google.

Add your video information via your Video Status page
